

JOIN US TODAY!

The Addison Elementary School Foundation (AESF) was formed in 2008, in response to a growing need for funding of additional enrichment activities at Addison Elementary. Like many schools in Cobb County and across the country, our non-profit association was formed in order to secure private and government grants, as well as to encourage parent and community contributions to the school's 501 (c) (3) organization. Without a Foundation, there are very few avenues available to obtain funding of additional resources for the school.

The AESF opened our science lab on April 22, 2010 as a result of two years of fundraising efforts. We have an ongoing commitment to support the lab. Not only does the Foundation provide funds for purchasing equipment and supplies, we also fund a lab coordinator who helps teachers from each grade prepare and clean up materials for labs. She also assists some in planning and co/teaching lessons. The Foundation is also responsible for funding for the school's BrainPop subscription and providing grants to each grade level, as well as grants to our art, music and PE programs to help fund the purchase of enrichment materials. Please join us with your 100% tax-deductible donation.

For further details, please visit our website, www.foundation4addison.org, or contact us at president@foundation4addison.org.
